👤 Summary

I am passionate about turning raw data into meaningful insights for smart decision-making. Skilled in SQL, Excel, Python, Power BI, and Tableau, I enjoy solving problems and discovering trends. I gained practical experience in web designing and data entry during my internship at Jellysoft IT Technology, Thoothukudi. I aim to build a career that drives data-driven growth and innovation.

🎓 Education

Dr. Sivanthi Aditanar College Of Engineering, Anna University
B. Tech IT - Information Technology, CGPA: 8.49 upto 5th semester
Thoothukudi, TAMIL NADU

I am deeply passionate about transforming raw data into meaningful insights that drive smart decision-making. With a strong foundation in tools like SQL, Excel, Python, Power BI, and Tableau, I enjoy solving complex problems, discovering trends, and telling data-driven stories. My passion lies in continuously learning new technologies and applying analytical thinking to deliver real-world business solutions. I also gained practical experience during my internship at Jellysoft IT Technology in Thoothukudi, where I worked on web designing and data entry tasks, which helped me improve my technical and project handling skills. I aim to build a career where I can contribute to data-driven growth and innovation.

📇 Intersets

I am interested in data analysis, web designing, writing, traveling, playing sports, listening to music, and singing.

🏆 Hobbies

My hobbies include watching TV and listening to music, which help me relax and refresh my mind. I enjoy playing kabaddi with my siblings, as it keeps me active and strengthens our bond. I love writing, especially when I listen to music—it inspires my thoughts and creativity. Singing alone is a passion of mine; it brings me joy, peace, and a sense of comfort. In my free time, I often find myself overthinking, which sometimes leads to deep reflections and new ideas. I am also interested in data entry tasks, as I enjoy working with focus and accuracy. These activities keep me balanced and connected to myself.
